
Win 10 systems Notification

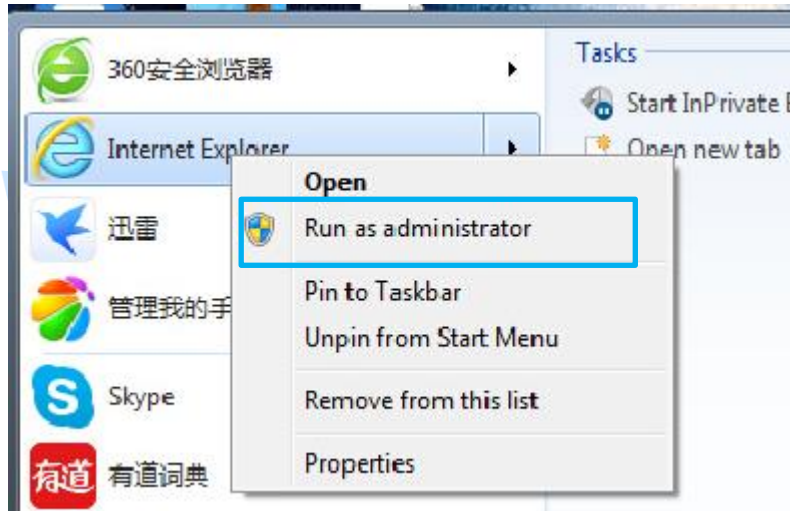

Thank you for purchasing our Network camera!

This note is just for the users who operate our product in Win 10 system.

1. Because the high level of win 10 security protection, it is sensitive to the plug-in.

When you login JFTECH product website, you must login as administrator.

Right click IE and choose to run as administrator.

2. If you run IE directly, you will get failed in some function, for example, snapshot, path changing of snapshot and record, etc.
